When you book with us, be sure to have a breathtaking experience as we travel around, nature will surprise you, the vegetation, the carnivores which are very popular in the Chobe region. These are amazing hunters such as the lions, leopards, cheetahs, hyenas, jackals and wild dogs. When it comes to herbivores, buffaloes, elephants, gazelle, impala, monkeys, giraffes, warthogs, and wildebeest are also spotted in this region as it is abundant in wild life. If you are interested in bird life species then this is all for you. We also have a wide variety of vegetation that we will educate you about as we do our tours.

Our Night Experience

Our night experience is stunning especially under a full moon, with the aroma of a large bon fire surrounded friends and listening to tales of the forest. It is just as beautiful for us to learn about your stories as this continues to forge our relationship throughout our excursions and beyond.

The stars on a normal night are as extraordinary as you would clearly view them and spot the ones you know about. To add to this, the whispers of the night hunters can be heard kilometers away yet sound so close.

Our boat cruise excursions are just as interesting and visual with the beautiful setting sun; the last drink of the day by the large numbers of animals is always unique as some hunts can be spotted in the vicinity also by crocodiles.

Victoria Falls, one of the wonders of the world lies on the border of Zambia and Zimbabwe on this full-day tour from Kasane. Take a guided tour of the area around Victoria Falls and discover the unique ecosystems that flourish in the area. The fauna and flora is different from the Chobe region, and being at various viewpoints listening to the massive falls is quite an experience for a day trip.
