Welcome to Botswana

Botswana is well known for having some of the best wilderness and wildlife areas on the African continent. With a full 38 percent of its total land area devoted to national parks, reserves and wildlife management areas - for the most part unfenced, allowing animals to roam wild and free – travel through many parts of the country has the feeling of moving through an immense nature wonderland.

Botswana is a rarity in our overpopulated, over-developed world. Untamed and untamable, it is one of the last great refuges for nature’s magnificent pageantry of life. Experience here the stunning beauty of the world’s largest intact inland Delta – the Okavango; the unimaginable vastness of the world’s second largest game reserve – the Central Kalahari Game Reserve; the isolation and other-worldliness of the Makgadikgadi – uninhabited pans the size of Portugal; and the astoundingly prolific wildlife of the Chobe National Park.

Botswana is the last stronghold for a number of endangered bird and mammal
species, including Wild Dog, Cheetah, Brown Hyena, Cape Vulture, Wattled Crane, Kori Bustard, and Pel’s Fishing Owl. This makes your safari experience even more memorable, and at times you will feel simply surrounded by wild animals. The first - and most lasting impressions – will be of vast expanses of uninhabited wilderness stretching from horizon to horizon, the sensation of limitless space, astoundingly rich wildlife and bird viewing, night skies littered with stars and heavenly bodies of an unimaginable brilliance, and stunning sunsets of unearthly beauty.

As well, with more and more cultural tourism options on offer, you will be charmed by the people of Botswana, visiting their villages and experiencing first-hand their rich cultural heritage. But perhaps most of all, Botswana’s greatest gift is its ability to put us in touch with our natural selves. It offers that vital link so keenly felt by inhabitants of the developed world, a pervasive void we feel but often cannot name – our connectedness with Nature and the astonishing diversity of plants and animals to be explored.

It is with pleasure that we publish yet another booklet for Botswana's graded tourist accommodation facilities.

This grading and classification of accommodation facilities is done in accordance with the developed and approved Botswana Bureau of Standards specifications, which are briefly described under Grading Standards on this issue.

The results of graded accommodation establishments stand as confirmation that Botswana offers travellers accommodation options of quality and repute. The results further indicate a general improvement on the level of service quality offered by our facilities since the last grading exercise, with more facilities using the mentorship programme offered by Botswana Tourism Organisation to improve on their facilities further.

Some facilities do not appear in this publication due to various factors such as on-going refurbishments and/or upgrading, or pending re-assessment.

This accommodation guide is both essential and useful to all visitors, local or international. The results of graded facilities are also found on our website, www.botswanatourism.co.bw, where there is an opportunity to view all graded establishments on an interactive Map of Botswana. In order to assist the industry to improve further, kindly give us feedback by completing the Questionnaire/Feedback form posted on the website.

I hope you will take time to experience the beauty that Botswana has to offer, the flora and fauna, culture, heritage, and other fascinating beauties found nowhere else but in Botswana.

I trust you will find this publication very useful.

Thank you, kea leboga.

Introduction

The grading system serves as a useful tool in indicating to travel agents, tour operators and tourists the general quality levels of accommodation facilities in an area as a basis for deciding which facilities to select before tourists start a journey to any particular destination. The system also provides a framework to industry investors in designing their facilities to attract the desired market groups. Basically, the role of grading is to protect the consumer and for the accommodation establishment to benchmark their performance against set standards.

The Botswana Star Grading System is used to differentiate the various quality levels of accommodation establishments, it provides judgements on the amenities, facilities and services of particular accommodation in a way that enables travellers to choose the quality of accommodation they want. The system is mandatory for all types of enterprises. The system applies objectivity obtained from the Grading standards and subjectivity obtained from the Grading Criteria. It is the combination of these two documentations that evaluate whether the establishment is fit for purpose as intended, thus ensuring an accommodation establishment qualifies for a Star Grading having achieved an acceptable average score. The guiding principles for the establishment of the Botswana Star Grading System are:

• A marketing and quality assurance tool based on international recognised ratings.
• Aids accommodation establishments to benchmark their performance against set Standards.
• Serves as a pledge to commitment to quality, standards and service.
• Allows for consumer confidence and choice.

Benefits of Graded Facilities

• Recognised both nationally and internationally, for their commitment to standards and service within the hospitality industry, hence, assisting establishments in positioning their products.
• Displaying of plaques issued by the Botswana Tourism Organisation.
• Displaying of grading certificates issued by the Organisation inside their establishments.
• Listed on the Botswana Tourism Organization’s website with a hyperlink to the individual property.
• Listed on the annual accommodation guide by location and star rating.
• Participation at the marketing fairs through Botswana Tourism Organisation.
FACILITIES TO BE GRADED

All tourist enterprises licensed under the Tourism Act of 2009 shall be graded in accordance with the provisions of the Botswana Tourism Organisation (BTO) Act, 2009. These include all facilities throughout the country such as hotels, guesthouses, lodges and self catering establishments. Facilities therefore have to meet minimum licensing requirements.

The grading system is compulsory and it is conducted bi-annually. The system consists of a rating from 1 to a 5 star facility.

- **One Star** facility offers fair to good (acceptable/modest) quality in the overall standard of furnishings, service and guest care.
- **Two Star** facility offers good quality in the overall standard of furnishings, service and guest care.
- **Three Star** offers very good quality in the overall standard of furnishings, service and guest care.
- **Four Star** offers superior (excellent) comfort and quality with a high standard of furnishings, service and guest care.
- **Five Star** facility offers an exceptional quality and luxurious accommodation with highest standard of furnishings, flawless service and meticulous guest care.
- **Grade Pending** includes facilities which may have no award, new facilities, or those whose certificates have expired and are due for re-grading.

GRADING ASSESSORS

Botswana Tourism Organisation has employed a team of trained grading assessors who have undergone internationally recognized training in the principles and etiquette of grading. Refresher courses are conducted intermittently. The grading assessors are Joyce Bose Morontshe, Richard Mafila Malesu, Tshepho F. Mmokele, Kegomoditswe Onyana Modikwe, Ferdinand Sebinyane, Masego Moakofhi, Thatayaone Mmapatsi, Messiah Matoleta, Thshoganetso Carl-Ponoelele, Keotshepile Mphusu and Thabang Segaetsho.

QUALITY ASSURANCE COMMITTEE

The recommendation of the Grading team is ratified by the Quality Assurance Committee. The committee is appointed in terms of the provisions of the Botswana Tourism Organisation Act of 2009 for a period of two years, eligible for re-appointment. The committee has the power to suspend, revoke, cancel, and refuse to issue or renew grading certificates.

All members of the committee possess special expertise in the field of tourism. The current members of the committee are as follows: Dr. Susan Keitumetse (Chairperson of the Committee and also Member of the Botswana Tourism Board); Mr. Godfrey M. Kupe (Member of the Botswana Tourism Board); Ms. Morengoe Ntloedibe-Disele (Tourism Expert); Mr. Lawrence Peloewetse (Senior Lecturer - Hospitality and Tourism, Gaborone Technical College); Mr. O. Cedric Lopang (Manager, Engineering Standards, Botswana Bureau of Standards); Mr. Ted Soutter (Hospitality and Tourism Association of Botswana); Ms. Myra T. Sekgororoane (Chief Executive Officer, Botswana Tourism Organisation).

Gaborone is the capital City of Botswana and the main attraction of this region. It is often described as Africa’s fastest growing city, it is a vibrant and colourful city, which lies in the flat valley between Kgale and Oodi hills, on the Notwane River in the south eastern corner of Botswana, 15km from the South African border at Tlokweng.

Once proudly referred to as ‘Africa’s fastest growing city,’ Botswana’s capital, Gaborone, has been – since its inception – continually expanding, to the point that now the sprawling urban centre of some 300 000 residents has become nearly unrecognizable from the tiny, dusty administrative town it was at the country’s independence in 1966.

From the end of the nineteenth century, until 1963, tiny ‘Gaberones’ Village, as the town was then called, consisted of only a small settlement on the railway line and a small administrative centre in the area now called ‘The Village.’ The land between both settlements was Crown land, but was used by the people of the neighbouring village of Tlokweng as a cattle grazing area.

Britain’s Bechuanaland protectorate (established in 1885) had its main administrative centre in Mafeking (now Mafikeng), in South Africa, just over the current Ramatlabama Border. As plans developed for the country’s independence, it was clear it would need an administrative town within its political boundaries. Bechuanaland was the only territory in the world whose administrative centre lay outside its boundaries.

Nine possible sites were suggested: Mahalapye, Shashe, Francistown, Serowe, Artesia, Lobatse, Gaborone, Maun and a point within the Tuli Block. Gaborone was chosen because of its strategic location, its proximity to the to the railway line and Pretoria, its already established administrative offices, its accessibility to most of the major tribes, its non-association with any particular tribe, and most importantly, its closeness to a major water source.

The city was named after Kgosi Gaborone, leader of the Batlokwa people, who migrated from their ancestral homelands in the Magaliesberg Mountains and in 1881 settled in the Tlokweng area (then called Moshaweng). Gaborone literally means ‘it does not fit badly’ or ‘it is not unbecoming.’ Once plans for the city had been drawn up, technical experts from several European countries were brought in to assist with the
planning and building of the town; and architects, artisans, supervisors and labourers were brought in from surrounding areas in Botswana, and from Southern Rhodesia.

In mid-1963, construction on the Gaborone Dam began, while work on the town itself commenced in early 1964.

In eighteen months, the new capital emerged from the African bush. By the time it was completed – incidentally nearly on time – it boasted National Assembly buildings, Government office blocks, a power station, a hospital, schools, radio station, an airfield, a telephone exchange, police stations, a post office, banks, shops, a church, a hotel, a brewery, a stadium grandstand, a dam, and more than one thousand houses.

Indeed the basic infrastructure was in place for Independence Day on 30th September 1966, when Bechuanaland became the eleventh British territory in Africa to become independent.

Since then the city has grown into a modern, bustling government, commercial and industrial centre, now incorporating the neighbouring villages of Tlokweng and Mogoditshane, and with housing estates, industrial estates and financial centres radiating from its centre. Gaborone gained city status in 1986.

Twenty-first century Gaborone now boasts four, large American-style malls, replete with cinema complexes, a host of hotels, guest houses and restaurants, an international airport, a cultural centre, discos and nightclubs, a national museum and art gallery, as well as two golf courses and other sports facilities.

What makes Gaborone so unique, however, is that the visitor can enjoy all the familiar modern conveniences of home, but can gain entry into rural Africa, or wildlife areas, within minutes – having then the best of both possible worlds.
Boiketlo Lodge is a commercial guest house located right in the heart of Gaborone city, in extension 2, on plot 6043, seboko close, opposite the “Poso House” building/tower along Kaunda Road.

It provides basic accommodation ideal for people who want to do business around the city or can be an option for backpackers who simply want to be within walking distance of the town centre as a reasonably priced stopover. It provides Bed & Breakfast and other meals on request.

All rooms are air conditioned, fitted with a satellite/DSTV, colour TV, Free WIFI (on request), coffee/tea making facilities, en-suite toilet & bath/shower, ironing board (on request) and should you need to sit outside, there is a shaded area within the yard and guests have access to onsite parking space for up to 8 cars, secured with an electric fence and an alarm.

KASANE

Kasane is the administrative centre of the Chobe District and the northern entrance to the Chobe National Park. Not too long ago Kasane was a remote and forgettable small village. However, its strategic location along the main tourist routes (meeting point of four countries - Botswana, Zambia, Zimbabwe and Namibia) has led to rapid expansion in recent years. Six kilometres east of Kasane is tiny Kazungula, which serves as the landing for the Kazungula Ferry between Botswana and Zambia.

Situated in the northeast, Kasane is a bustling little town offering trouble-free access to the Chobe National Park. As there are no boundary fences between the park and the village, game such as elephant and hippo can frequently be seen wandering down the road and through the Kasane campsites.
Picturesquely situated 100 km west of the Victoria Falls, overlooking the Chobe River and the Caprivi floodplains, the iconic Chobe Game Lodge is the only permanent safari lodge within the Chobe National Park.

The lodge accommodates up to 94 guests in absolute luxury. Rooms are river-facing, and include minibars, en-suite bathrooms, tea and coffee making facilities as well as private terraces. In addition, four exclusive suites have their own plunge pools and separate lounges.

All safari activities are tailored to suit individual requirements. Game drives, game viewing by small boats, sunset cruises along the Chobe River and after-dinner stargazing are offered.
Located on the banks of the dry Savute channel, Savute Safari Lodge is intimate, accommodating only 24 guests in cool thatched timber and glass suites.

All suites have private decks, combined bedroom and sitting areas and en-suite facilities. The sitting area, library and cocktail bar are situated in an exquisite thatch and timber main building.

Savute boasts a viewing deck, an al fresco dining area and swimming pool – which is ideal for watching game at the waterhole. These features set the lodge apart from other typical safari destinations.

Open 4x4 game drives are conducted in the Savute area, including the famous Savute Marsh, and the ancient San rock paintings at Gubatsa Hills, add magic to a delightful African safari.
Perched on the banks of the now flowing Savute Channel, the camp is a spectacular base from which to explore the area. Drama unfolds here daily with interactions between the high concentrations of elephant, the large lion prides and the many hyenas that inhabit the area. Savute is also unrivaled for its sightings of excellent predator/prey interaction during the drier months and is a ‘must stay’ on any Southern Africa safari.

Accommodation is everything you would expect of a luxury safari experience. All luxury tents are housed on raised wooden platforms, offering great views, and shaded by a traditional African thatch roof. The large private decks are furnished with easy chairs and a hammock, ideal for viewing wildlife, or for enjoying a private dinner.

It manages to maintain its character despite being Botswana’s second-largest urban centre and “Capital of the North”.

Francistown
One of Botswana's oldest towns, Francistown was the centre of southern Africa's first gold rush. It came to prominence through European prospectors' discovery and mining of gold in the region in the mid 19th century, first at Tatitown (about 50 kilometres from Francistown), and later at Francistown itself (at Monarch Mine, recently revived).

Gold had been mined by Africans living in the region for generations before. Indeed the wealth and prosperity which the region's gold deposits have brought stretches as far back as the 12th to 14th centuries. The city was named after the British prospector and miner Daniel Francis, who acquired prospecting licenses in 1869, eventually becoming director of the Tati Concessions Company. Francis and other prospectors often used ancient gold shafts as guiding points for their prospecting, or they simply carried on the mining which had been started in those shafts generations ago. The city is still surrounded by old, abandoned mines.

The original town was founded as a settlement near Monarch mine in 1897, consisting of only one main street lined with bustling saloons and supply stores running parallel to the railway line, which was established by British entrepreneur Cecil Rhodes as a vital link between South Africa and Britain's northern colonies. Situated 436 kilometres north of Gaborone, Francistown is the country's second largest city, and an industrial and transport hub, with a railway line leading north to Bulawayo, Zimbabwe. The main road northwest of Francistown gives passage to Maun and the Okavango Delta, Kasane and Chobe National Park, Livingstone, Zambia and Victoria Falls, Zimbabwe.

Francistown is currently under-going an economic boom, mostly due to the recent resuscitation of gold mining; this has given new life to the property and transport sectors, with the accompanying infrastructural additions and developments.

Over the years, Francistown (population approximately 115000) has undergone continual expansion and modernisation, to the point that much of its original dusty frontier town atmosphere has disappeared. Modern malls, shops, hotels, restaurants, housing developments and industrial complexes now dominate the city, with some old, colonial buildings still to be seen in the city centre. Yet colourful, distinctively African local markets dot the city, and pleasant parks give it a user-friendly feeling. A lively nightclub scene showcases good local music and dance.

Ghanzi - also known as “The capital of the Kalahari” must be one of Botswana’s most intriguing towns - situated in the middle of nowhere and separated from the rest of the world by hundreds of kilometres of road. The first and probably major impression you will have of the interminable journey from to Ghanzi is the sheer monotony of the landscape. For the most part the terrain is flat and featureless, with some scrub bushes, thorn trees and grasslands. In the summer the heat is sweltering, in winter the drive is made more tolerable by cooler temperatures. The road is excellent tarmac. There is a strange fascination to it all - and subtle, unexpected variations in terrain. There is also beauty to be found in the eerie sunsets and in the desert night’s overwhelming canopy of stars.

Dumatau means ‘roar of the lion’ yet it is its massive elephant concentrations and outstanding wildlife in general for which it is renowned. Located close to the source of the Savute Channel in the vast Linyanti concession in northern Botswana, this and other waterways lure a plethora of wildlife and birds particularly in the dry winter months.

Dumatau is a ten-roomed tented camp (including one family room) overlooking a large hippo-filled lagoon. The tents are spacious, under thatch with canvas walls, en-suite bathroom facilities and an outside shower. There is a dining room, pub, lounge, swimming pool and a special guest bathroom with a fantastic view.

Wildlife viewing is the primary activity here, either on day and night game drives or while on foot and on the water (levels permitting). There are also a number of platforms and hides from which to view and photograph animals and birds.
Kings Pool Camp is located in the Linyanti Wildlife Reserve, a vast private concession in the northern part of Botswana, on the western boundary of Chobe National Park. The accommodation is luxurious and the wildlife spectacular.

The area is famed for its tremendous elephant herds during the dry season.

Nine well-appointed tents each have a large bedroom area, lounge, private plunge pool and ‘sala.’ The spacious en-suite bathrooms comprise double showers, twin hand-basins and an outdoor shower. Raised walkways allow animals to wander freely through the camp to and from the Linyanti River and the Kings Pool Lagoon. The main area includes a lounge and dining area, a pool and an open-air ‘kgotla’ for dining under the stars.

Activities include day and night game drives, walks, and boat cruises along the Linyanti River (water levels allowing).
Under majestic African ebony and marula trees, this well known camp straddles the banks of the Kwando River. Located in the exclusive 232 000 hectare (550 000 acre) Kwando concession, Lagoon comprises 8 expansive custom designed tents each with views over the vast Kwando/ Linyanti wetlands. Each tent comprises of a raised bedroom area, over looking a large lounge with writing desk, luxurious Persian rugs and deep leather arm chairs. To the rear of the bed room lies the dressing area adjoining a spacious bathroom with Victorian style high back bath tub, separate toilet and both inside and outdoor showers.

The family room that sleeps four people in two separate bedrooms, with shared bathroom is perfect for those travelling on safari with younger children. General game graze on the wide flood plains to the south of the camp, in spectacular scenery under the ever-watchful scrutiny of predators. Lagoon offers regular and reliable sightings of elephant, lion, wild dog, leopard, cheetah, giraffe, zebra, tsessebe, impala, wildebeest, buffalo and waterbuck. Shady grasslands give way to the striking silver cluster leaf and mixed mopane woodlands, home to the less commonly seen sable, eland and roan.
Hidden in the Southern portion of the extensive Kwando wilderness of 232 000 ha. (550 000 acres) is Lebala Camp. Kwando Lebala Camp comprises 16 beds in 8 luxuriously spacious tents, on Zimbabwe teak decks. Each tent is surrounded by spectacular shade cloth walls, with a variety of curtains and shades so you can decide on how much light you let in or not. Sliding doors and a spacious bedroom area, bathroom including a Victorian claw bathtub, double basins, outside double showers, separate toilet and fans. Lebala is the Tswana word for wide-open plains, and each tent has extensive views over expansive tracts of African plains and wetlands, that comprise part of the Kwando-Linyanti flood plain system. This system is an intricate labyrinth of waterways, reed beds, islands, floodplains, bush, scrub and trees. To those in the know - somewhat Okavango like but something different too.

Excellent general game abounds on the broad plains, creating spectacular scenery, adorned with herds of plains game and the ever-attendant predators. Lebala offers regular and reliable sightings of elephant, lion, wild dog, leopard, cheetah, giraffe, zebra, tsessebe, kudu, lechwe, impala, wildebeest and waterbuck in stunning settings.
Savuti Bush Camp is located on the Savute Channel, which for many years was dry, wide-open ribbon of grassland snaking through the adjoining woodland. In 2008, the waters returned, and Savuti Bush Camp now has front-row seats to view the abundant game that has congregated and adapted in its wake. The site of the camp is about 17 kilometres “downstream” from the Zibadianja Lagoon – the source of the Channel.

This intimate camp’s en-suite accommodation is in seven large Meru-style walk-in tents that are raised off the ground and face onto the Savute Channel. From the thatched dining area and pub, a plunge pool and large viewing area with fire pit extend outwards on raised wooden decks towards the new waters that flow past the camp.

Activities on offer are day and night game drives, guided walks and, depending on the water levels, canoeing. Several elevated hides can also be visited.

BY AIR

Air Botswana, Botswana’s national and only airline, provides international flights between Gaborone and Johannesburg, Gaborone and Harare, Maun and Johannesburg, Kasane and Johannesburg and Francistown and Johannesburg. Domestic flights run between Gaborone and Francistown, Maun and Kasane, and the airline has recently re-introduced its Maun to Kasane flight (three times per week).

Air Botswana has thrice daily flights between Gaborone and Johannesburg. South African Airways has twice daily flights between Johannesburg and Gaborone, during the week. South African Express has five flights daily between Johannesburg and Gaborone, during the week.

- Air Botswana has daily flights from Johannesburg direct to Maun.
- Air Namibia flies Windhoek to Maun every day of the week, except Tuesday and Thursday.
- Kenya Airways flies Nairobi to Gaborone.
- Air charter services are also available.

Most major international airlines from Europe, the United States, Asia and Australia fly to Johannesburg, South Africa, where connecting flights can be booked to Sir Seretse Khama International Airport in Gaborone, or to Maun, Francistown or Kasane.

BY ROAD

Botswana is accessible by tarred road from South Africa, Zimbabwe, Zambia and Namibia. Vehicles are driven on the left hand side of the road. A valid international driver’s license, along with vehicle registration documents, are required to drive in Botswana, and drivers should always carry them.

Most major roads in Botswana are tarred and driving conditions are generally good. The main roads to established areas are regularly graded. Four-wheel drive is required when travelling in the national parks and reserves, as well as in remote areas.
Car and four-wheel drive rental services are widely available in major tourist centres, airports and hotels.

**BY BUS**
There are scheduled bus services across borders between Botswana and South Africa, Zimbabwe, Namibia and Zambia, as well as good internal bus services linking major and minor towns and villages across the country.

**BY RAIL**
There are no passenger train services in Botswana. Cargo services run on a daily basis.

For more information consult:
The Botswana Railways website:
www.botswanarailways.co.bw

**GETTING AROUND IN TOWNS**
Taxis are normally a convenient way to get around in towns and are reasonably priced. They are easily identified in designated stations or can be contacted by telephone.
Taxis to Gaborone are also available from Sir Seretse Khama International Airport.

ENTRY FORMALITIES

**VISAS**
Citizens of most European and Common-wealth countries do not require a visa for entry into Botswana.

Visitors should check with Botswana embassies or consulates, or their travel agents, before departure.

It is vital for visitors to carry a valid passport and sufficient funds to facilitate their stay.

*Note: For countries with whom Botswana has no diplomatic representation, visa information and processing is available through British Embassies and High Commissions.*

**LUGGAGE RESTRICTIONS**
It is advisable to adhere to the luggage restrictions for both scheduled international, domestic and charter flights: 20kgs (44lbs) on domestic flights, 12kgs (26lbs) on light aircraft (including Okavango Delta charter flights), and 20kgs (44lbs) on international flights.

**VACCINATIONS**
If you are travelling to Botswana from areas infected with Yellow Fever, you must have a valid Yellow Fever vaccination certificate. Otherwise, no other immunisations are required. However, it would be wise to have an updated TPD (tetanus, polio, diphtheria) vaccine, and a Hepatitis A vaccine.

WHAT TO WEAR

In summer, lightweight, light-coloured cottons are preferable. Garments of neutral colours that blend with the bush and forest are advisable for safaris and game viewing. Avoid synthetic materials and black clothing, as they increase perspiration and discomfort. Bring a lightweight jacket and/or jersey for unexpected temperature changes or rain.

In winter, wear trousers, long-sleeved shirts / blouses and jerseys. From May – August, night temperatures can fall below zero degrees celsius, so warm jerseys and jackets are vital, especially on morning and evening game drives. Closed, comfortable walking shoes or gym shoes are a must in all seasons. Special attention should be given to protection from the sun. Bring a sunhat, good quality sunscreen, sun lotion and polarised sunglasses. Wide brimmed hats are preferable to baseball caps.

It should also be noted that police permits for firearms are issued on a limited quota basis, and there can be a considerable delay in obtaining a permit, particularly on first importation. Visitors to Botswana have the opportunity to purchase diamond jewellery from authorised dealers. A strict certification system is in place to inform the buyer of the origin of the diamond, and the stated value and quality is verified.

Botswana is one of the healthiest countries in sub-Saharan Africa, with good primary health care facilities available throughout the country. However, the following health precautions are advised.

**TRAVEL INSURANCE**

It is essential for visitors to remote areas of Botswana to have a comprehensive medical insurance policy, to provide coverage for the treatment of serious illnesses/accidents, and if required, medical evacuation. Personal effects insurance is also advisable.

Check that your insurance policy will be accepted by service providers in Botswana. Ensure that you are treated by licensed medical personnel to enable you to provide your insurance company with appropriate documentation and receipts.

Reasonably priced medical services are available at government clinics and hospitals throughout the country. Private medical practitioners are available in the cities and major towns, such as Gaborone, Francistown and Maun.

Gaborone Private Hospital is the largest private hospital in Botswana. The hospital requires medical coverage, or cash payment in advance where medical coverage is not available.

**DRINKING WATER**

Tap water throughout the country is safe to drink. Bottled mineral water is readily available in most shops and supermarkets, and at camps and lodges.

Tourists travelling by road are advised to carry sufficient water at all times.
HIV/AIDS
Visitors are advised to take the necessary precautions against HIV/AIDS and other Sexually Transmitted Diseases.

MALARIA
Malaria, including cerebral malaria, is common in northern Botswana, in the Okavango and Chobe areas, particularly during and immediately following the rainy season, from November to April.

As the strains of malaria, and the drugs used to combat them, frequently change, and as certain strains can become drug resistant, it is best to seek medical advice before your departure and take any medication prescribed. Pregnant or very young children are not advised to travel to malarial areas.

Other precautions are: to wear long sleeves, socks, closed shoes, and generally keep the body covered, to sleep with a mosquito net and to use mosquito coils and repellent.

SUN AND HEAT-RELATED PROBLEMS
Always take preventive measures that include wearing a wide-brimmed sunhat and sunglasses, liberally applying sunscreen every three or four hours, regularly taking rehydration mixes, drinking plenty of water and fruit juices (at least three litres of liquid daily), avoiding prolonged exposure to the sun, and avoiding excessive amounts of alcohol, which causes dehydration.

SHOPPING
All major towns in Botswana, including Maun and Kasane, have shopping centres and supermarkets, and all basic commodities can easily be purchased. Many regional chain stores operate in Botswana. In addition, there are 24-hour convenience shops at most fuel service stations.

There is an increasing range of local arts and crafts on sale in Gaborone, Maun and Kasane and other tourist areas; they include Botswana’s renowned world-class baskets, woodcarvings, jewellery, pottery, tapestries, fabrics and clothing, glassware, and San crafts.

VALUE ADDED TAX
To claim 10% VAT refund for total value of goods purchased, the amount spent should be more than P5000. In such cases, the following is required: a tax invoice stating VAT paid, your passport number and your bank account details.

It is always advisable to keep a copy of the VAT form as a record for any follow-up on the transaction.

VAT claims usually can be made at all major border posts and airports.

SAFETY
The self-drive camper driving the open roads in Botswana should always drive at a reasonable speed, and avoid over-taking, except when absolutely necessary.
CRIME
Botswana remains a relatively safe place to visit or live. Take the normal precautions you would take anywhere else:

- Always lock car doors;
- Always lock hotel rooms;
- Don't leave valuables in cars or hotel rooms;
- Take care with your bags in shopping centres and other crowded places, and after coming out of banks or ATM kiosks;
- Avoid walking alone at night.
